

10 Antennas

2022-06-25

A list and pictures of the 10 antennas mounted on my Sling TSi. I built a new mount for the GPS antennas to accommodate the three antennas and have no obstructions like the aluminum cowling vent close ore above the antennas. The Lynx NGT-9000 transponder alone has three antennas (WAAS-GPS, ADSB-IN/OUT, [NY164](#) directional antenna).

- COM Radio Antennas Comant CI-122 / Comant CI-121

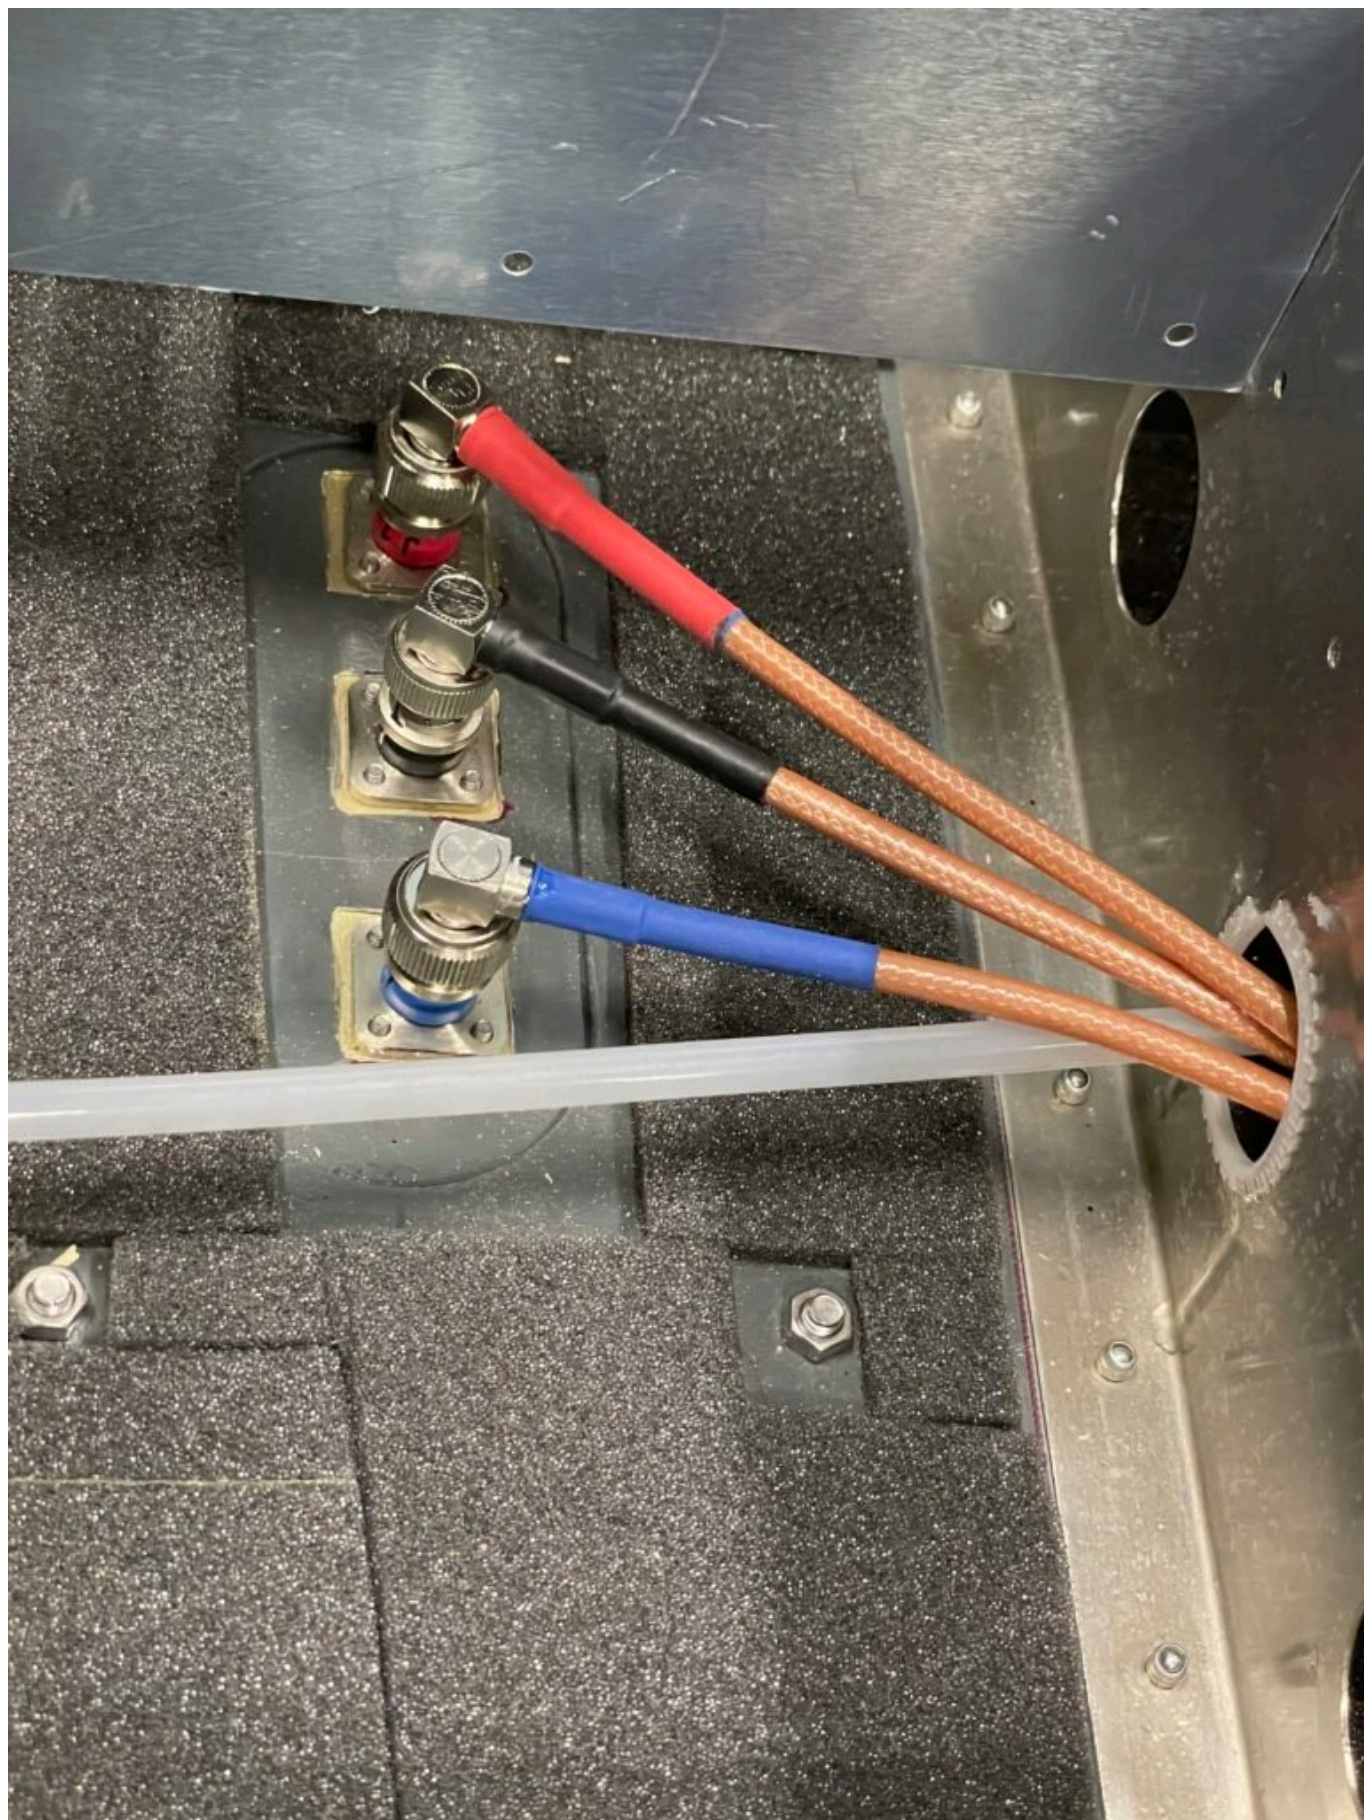

- GPS Antennas (2 x GA35 for the G5 and the Lynx NGT-9000 + 1 x GA56 for the G3x)

- Lynx NGT-9000 Directional Antenna ([NY164](#) / [S72-1746](#) from Sensorantennas)

- ARTEX 345 ELT Antenna

- FLARM Antenna (GAV-868 868MHz)

- Transponder Antenna (RAMI AV-74)

- VOR Antenna (Bob Archer Wingtip Antenna SA-003-2)
